🖥 PROJECTS

Smart Optician
This is a Mobile App for Multi-vender who sell Optic products through a mobile app. I Worked on the vendor side which is a Web-based Admin panel. The whole project used Firebase for all the backend functionalities.

Smart RFID CARD
This is my Final Year Project in which our aim to use to single student card at various places like at gate to show record of student, at parking to show picture of vehicle which was with the student at the time of entering and at library.

🚴 HOBBIES
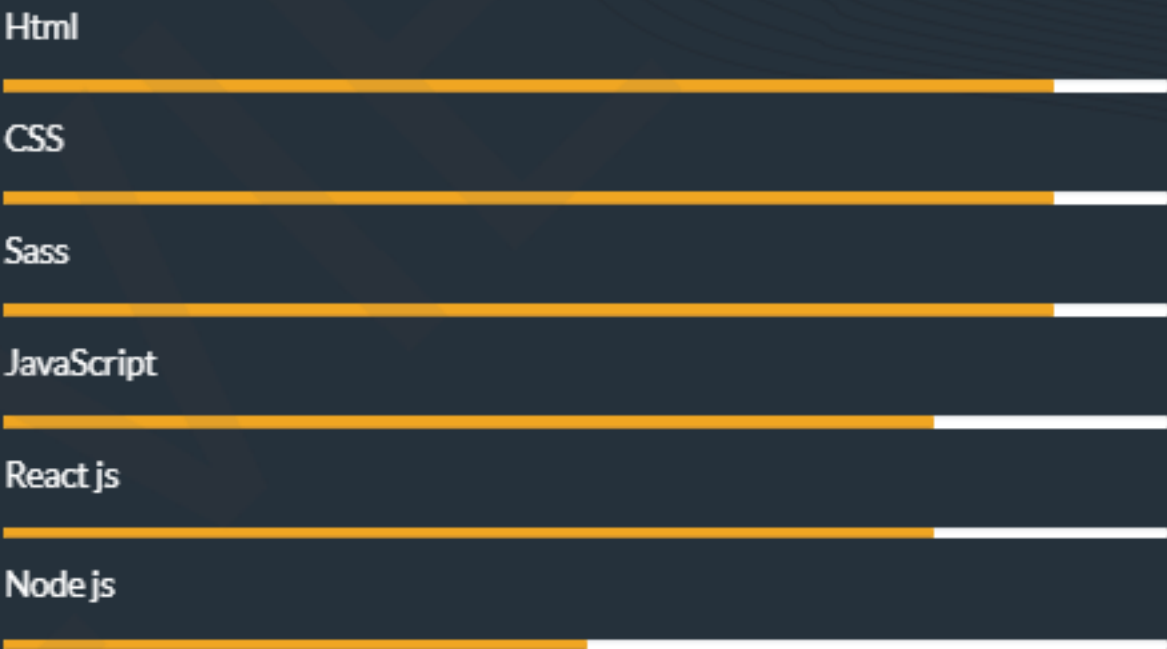

Gamming | Watching Videos | Social Media

SUMMARY

I'm responsible for coding, and modifying websites, from layout to function and according to a client's specifications. Strive to create visually appealing sites that feature user-friendly design and clear navigation. Passionate about my work.
